

Laboratories: Cooperative

-Specialised equipment:

- Microscopes
- Burners
- Autoclave
- DNA sequencer
- Shakers
- Incubators
- Temperature blocks
- Measuring equipment
- Centrifuge
- Gas chromatograph

-Specialised Climate:

- Exhaust boot
- Improved lighting conditions
- Eyewashing station

-Needs:

- Electricity
- Gas
- Water

Building Shop: Collective

-Specialised equipment:

- Drilling machines
- Saw machines
- Sanding machines
- Laser cutter
- 3D printer
- Metal workshop

-Specialised Climate:

- High air suction (dust)
- Improved lighting conditions
- Sound isolation

-Needs:

- Electricity

Prototyping Space: Collective

-Specialised equipment:

- Workbenches
- Crane/lifting machine

-Specialised Climate:

- None

-Needs:

- Electricity

-Extra:

- High ceiling

Auditorium: Collective

-Specialised equipment:

- Sitting places
- Beamer
- Sound system

-Specialised Climate:

- High refresh rate air
- Heat build up possible

-Needs:

- Electricity

-Extra:

- High ceiling

Clean room: Collective

-Specialised equipment:

- HEPA-filter
- Airlock
- Airshowers
- Gowning room

-Specialised Climate:

- Intensive specialised climate
- Improved lighting conditions

-Needs:

- Electricity

Testing facilities: Collective

-Specialised equipment:

- Windtunnel
- Solar testing
- Biofuels process

-Possibilities:

- Windtunnel facilitated by Group 5?
- Testing on facade
- Testing also in abandoned powerstation
